

#5279

I like my job filling containers of tea. This is my first paid job. I've had volunteer work before, but this is my first paid job and when I got my first paycheck I was very happy.

I'd rather work than sitting around doing nothing. I like the routine. I like working step by step...3 steps. I have to be careful not to spill the tea.

If they told me to work faster, I couldn't. I move slow and need to think carefully so I don't spill the tea. I need a job that lets me work slow like this one.
